- "Specified causes of loss" means the following:
  fire; lightning; explosion; windstorm or hall;
  amoke; eiroraft or vehicles; riot or civil
  commotion; vandalism; teakage from
  fire-extinguishing equipment; sinkhole
  collapse; volcanic action; falling objects;
  weight of show, too or steat; water damage.
  - a. Sinkhole collapse means the sudden sinking or collapse of land into underground empty spaces created by the action of water on timestone or dolomits. This cause of loss does not include:
    - (1) The cost of filling sinkholes; or
    - (2) Sinking or collapse of land into man-made underground cavities.
  - Falling objects does not include loss or damage to:
    - (1) Personal property in the open; or
    - (2) The interior of a building or structure, or property inside a building or structure, unless the root or an outside wall of the building or structure is first damaged by a failing object.

## Water damage means:

- (1) Accidental discharge or leakage of water or steam as the direct result of the breaking apart or cracking of a plumbing, heating, air conditioning or other system or appliance (other then a sump system including its related equipment and parts), that is located on the described premises and contains water or steam; and
- (2) Accidental discharge or leekage of water or waterborns material as the direct result of the breaking apart or cracking of a water or sower pipe that is located off the described premises and is part of a municipal potable water supply system or municipal senitary sewer system, if the breakage or cracking is caused by wear and tear.

But water damage does not include loss or damage otherwise excluded under the terms of the Water Exclusion. Therefore, for example, there is no coverage under this policy in the situation in which discharge or leakage of water results from the breaking apart or cracking of a pipe which was caused by or related to weather-induced flooding, even if wear and tear contributed to the breakage or cracking. As another example, and also in accordance with the terms of the Weter Exclusion, there is no coverage for less or demaga paused by or related to weather-induced flooding which follows or is exacerbated by pipe breakage or cracking attributable to wear and tear.

To the extent that accidental discharge or leakage of water falls within the criteria set forth in c.(1) or c.(2) of this definition of "specified causes of loss," such water is not subject to the provisions of the Weter Exclusion which preclude coverage for surface water or water under the surface of the ground.
